

LASH

Lash Lift + Tint

After Care:

First 24 hours

- Do not get your lashes wet
- Avoid beauty products around your lashes and eyes
- Avoid steam, saunas, heat, water or heavy workouts causing sweating
- Do not have any other facial treatments
- Avoid direct sunlight/uv light
- Do not touch your lashes

After 24 hours

- Be gentle, do not rub or pick at your lashes
- Avoid harsh skincare products or products containing oils
- Wait 48 hours to apply mascara and avoid waterproof mascara
- Reschedule your next lash lift + tint in about 6 weeks. This is the average length of a lash cycle in which your old lashes will shed and new ones will come in
- Avoid sun/uv light it will extend the life of the tint of your lashes
